New London Strike.
There was no change in the strike of the New London carpenters on Thursday. Asked about the suggestion that the issues of the strike be submitted to a board of arbitration, the union's representatives said Thursday that the suggestion was a good one. Nobody had authority, they said, to say whether the matter should be arbitrated or not.

FOR SUPPRESSION OF THE SOCIAL EVIL
Chicago Vice Commission Submits Recommendations to Council.
Chicago, April 5.—The Chicago vice commission made many radical recommendations in its report to the common council tonight and gave an exhaustive review of the present status of the social evil in Chicago, its past, its causes and means of suppressing it. The recommendations were:

standard of morality in Chicago appals dances by nearly naked women in the name of art and condemnances no worse before less prosperous audiences; men, not women, are the ones "higher up" in the business administration of the social evil; hotels which "ask no questions" of their patrons are a great contributing means to wrecked girlhood; prejudice against colored girls drive them into the social evil centers either as servants or inmates; the "white slave" traffic is not organized.
Some Causes of Social Evil.
Contributing causes are named as follows:
Want of the necessities of life, craving for simple luxuries, ignorance, broken promises, deceit of men; chief of all—poverty.
Lack of protection to immigrant girls aids the evil, says the report, and lake steamers with no regulations are fruitful sources of victims. Lack of proper pay for working girls is assailed at great length in bitter terms; and is called the chief reason why young girls fail to resist temptations

placed in their path. The causes are summed up thus:
Lack of ethical and religious teaching; economical stress on underpaid workers; large number of "seasonal" trades for women; living periods of the year with no employment; abnormal; unhappy home conditions; careless and ignorant parents; broken promises; love of ease and luxury; craving for excitement and changes; ignorance of hygiene.
To Overcome the Evil.
Among the recommendations, besides the morals court and commission, are these:
Instruction of children twelve to sixteen years in sex hygiene; by personal attention of parents; physical examination of applicants for marriage licenses; better pay for girls; abolition of the fine system against known members of vice districts; an intelligent and ample adult probation system; home for old offenders; an appeal to the chivalry of men; regulation of lake boats; investigation and supervision of employment agencies; laws calling centers of the evil public

nuisances; against allowing messenger boys to go into vice districts; the state to take the place of parents toward illegitimate children; transfer stations in the city; municipal dance halls; request rotation of policemen; women officers for the police force; vocational training for older girls in public schools; hotels and homes for working women and girls; vigilance in public parks where girls and women visit; and less liberty for children except under the eye of their parents; and, generally, closer attention of parents to the habits, acquaintances and doings of their children—girls and boys.
Two Falls on Des Reiler.
Boston, April 5.—Gus Schoenlein, "American" of Baltimore, defeated Dr. R. F. Reiler of Seattle in a wrestling bout at Mechanics hall tonight, winning two consecutive falls, the first in one hour and 34 seconds, secured by a farther arm, Nelson and crowd hold. The second fall, in 15 minutes 37 seconds, was secured with an ordinary body roll.

Resolved, That it is with profound regret we learn of the resignation of Rev.
